

FEDI HMIDA

JUNIOR FLUTTER DEVELOPER | DATA SCIENCE & AI ENGINEERING STUDENT

Tunis | Fedi.Hmida@esprit.tn | +216 93722130 | fedihmida.vercel.app | linkedin.com/in/fedi-hmida

SUMMARY

Data Science & AI Engineering student at **ESPRIT** with a Bachelor's degree in Computer Engineering and hands-on experience building **applied AI**, **Frontend**, and **Mobile solutions**. Skilled in **AI agent engineering** with **LangGraph**, **object detection & classification**, and **RAG Chatbot** development.

INTERNSHIP EXPERIENCE

AI / Mobile Development Intern July – September 2025

ADDINN Group Tunisia – Summer Internship

- Developed a **YOLO-based vehicle damage detection solution** and **FastAPI** backend to support automated insurance claim assessment workflows.
- Built a **cross-platform Flutter application** enabling users to submit insurance claims, upload supporting evidence, and track claim progress in real time.

Mobile Developer Intern February – June 2024

Msign – Final Year Project

- Built the **SolarFlow Flutter application** for real-time energy production tracking, connected-device management, remote control, and operational monitoring.
- Developed an **IoT-based monitoring and control platform** for solar-powered devices to support more efficient energy usage.

ACADEMIC PROJECTS

Firmaa — AI-Powered Smart Farming Platform February – May 2026

- Built an end-to-end **Autonomous Irrigation Agent** following the **TDSP methodology**, using crop, soil, and weather features to support irrigation decisions, water volume estimation, zone-based farm monitoring, and **human-in-the-loop approvals**.
- Built the application layer with a **Flutter mobile app**, **FastAPI backend**, **MongoDB data layer**, and **Next.js dashboard** featuring a 3D digital-twin farm view.

Sahitna Safe — Breast Cancer Detection ML Platform September – December 2025

- Developed a **CRISP-DM ML pipeline** on the WDBC dataset, achieving **98.83% accuracy**, **98.44% malignant recall**, and **0.9975 ROC-AUC** after comparing five classifiers, with an integrated **FastAPI backend** and **Next.js frontend**.

Onboardify — Smart Employee Onboarding Platform February – May 2025

- Contributed to a hybrid **JavaFX** and **Symfony** platform with personalized onboarding workflows, gamification features, and real-time dashboards.

SKILLS

AI

Agent Engineering, RAG Chatbot, YOLO, CNN, LangGraph, Tool-Calling, Scikit-learn, XGBoost, TensorFlow, PyTorch, OpenCV

Frameworks

Flutter, FastAPI, Next.js, Nest.js, Symfony, JavaFX

Databases

MongoDB, MySQL

Data Science Methodology

CRISP-DM, TDSP

Agile Methodology

Scrum, Kanban, Scrumban

EDUCATION

Data Science & AI Engineering

Private Higher School of Engineering & Technology (ESPRIT)

Bachelor's Degree in Computer Engineering

Higher Institute of Computer Science of Mahdia

ADDITIONAL INFO

CERTIFICATIONS

NVIDIA: Applications of AI for Anomaly Detection

NVIDIA: Fundamentals of Deep Learning

Languages

English, French, Arabic

Volunteering

Treasurer, IEEE ESPRIT Student Branch
